CONTENTS

Volume 66 (1990)

PHYSIOLOGY AND BIOCHEMISTRY

Physiology of starch storage in the monocellular alga *Chlamydomonas reinhardtii*
by S.G.Ball, L. Dirick, A. Decq, J.-C. Martiat and R.F. Matagne (Villenueve d'Ascq, France and Gembloux and Liège, Belgium) 1–9

Formation of sulfatoglucosides from exogenous aldoximes in plant cell cultures and organs
by J.W.D. Grootwassink, J.J. Balsevich and A.D. Kolenovsky (Saskatoon, Canada) 11–20

Effect of triazole fungicides on the growth, chloroplast pigments and sterol biosynthesis of maize (*Zea mays* L.)
by I.A. Khalil, E.I. Mercer and Z.X. Wang (Wales, U.K.) 21–28

Senescence of rice leaves. XX. Changes of proton secretion during senescence
by C.T. Chen, I.T. Chou and C.H. Kao (Taiwan, Republic of China) 29–34

Relationships between chloroplast cytoplasmic rRNA accumulation during the cell cycle of the green alga *Scenedesmus quadricauda*
by V. Zachleder, A. Kubinová and V. Cepák (Třeboň, Czechoslovakia) 35–41

Drechslerol-C, a phytotoxin produced by *Drechslera maydis*, the causal organism of leaf blight of *Costus speciosus*
by R.S. Shukla, P.K. Agrawal, R.S. Thakur and A. Husain (Lucknow, India) 43–49

Changes of wheat peptide hydrolases during differentiation and dedifferentiation
by M.A. Moreira, M.M. Veloso, C.P.P. Ricardo and M.C. Duque-Magalhães (Oeiras and Lisbon, Portugal) 51–57

Independent changes of inorganic pyrophosphate and the ATP/ADP or UTP/UDP ratios in plant cell suspension cultures
by J. Dancer, R. Veith, R. Feil, E. Komor and M. Stitt (Bayreuth, F.R.G.) 59–63

Immunochemical characterisation and in vitro synthesis of glycerol-3-phosphate acyltransferase from pea
by D. Douady, C. Passaquet and J.-P. Dubacq (Paris, France) 65–72

Plasmalemma isolation from cultured cells and roots of grapevine by aqueous two phase partition
by E. Miklos, A. Bérczi and L. Erdei (Kecskemét and Szeged, Hungary) 73–80

Possible involvement of the ATPase in the response of susceptible maize mitochondria to the toxin of *Helminthosporium maydis*, race T and to methomyl
by M. Moussa, C. Ouazzani, J.-F. Bonavent, A. Berville and A. Ghazi (Dijon and Orsay, France) ... 81–86

CELL AND TISSUE STUDIES IN VITRO

Nutrient uptake in suspension cultures of gramineae. I. Development of an assay system
by U. Schmitz and H. Lörz (Köln, F.R.G.) 87–94

Nutrient uptake in suspension cultures of gramineae. II. Suspension cultures of rice (*Oryza sativa* L.)
by U. Schmitz and H. Lörz (Köln, F.R.G.) 95–111

Spermidine and morphogenesis in single cell cultures of *Sideritis angustifolia* Lag.
by M. C. Sanchez-Graz, M. Garcia-Hernandez and J. Segura (Valencia, Spain) 113–118

Regeneration of plants from immature leaf-derived callus of strawberry (*Fragaria* × *ananassa*)
by N.S. Nehra, C. Stushnoff and K.K. Kartha (Saskatoon, Canada) 119–126

Biochemical changes in embryogenic and non-embryogenic calli of *Zea mays* L.
by K.V. Rao, P. Suprasanna and G.M. Reddy (Hyderabad, India) 127–130

GENERAL

Abnormal responses to gravity and auxin in mutants of *Arabidopsis thaliana*
by E.P. Maher and C.H. Bell (Edinburgh, U.K.) 131–138

PHYSIOLOGY AND BIOCHEMISTRY

Isoprene emissions from the grass *Arundo donax* L. are not linked to photorespiration
by C.N. Hewitt, R.K. Monson and R. Fall (Boulder, CO and Lancaster, U.K.) 139–144

Reduction in plasma membrane ATPase activity of tomato roots by salt stress
by J.W. Gronwald, C.G.Suhayda, M. Tal and M.C. Shannon (St. Paul, MN, Riverside, CA and Beer Sheva, Israel) 145–153

Purification and characterisation of barley leaf nitrite reductase
by S.-M. Ip, J. Kerr, W.J. Ingledew and J.L. Wray (St. Andrews, U.K.) 155–165

Characteristics and carbon metabolism of mesophyll and paraveinal mesophyll protoplasts from leaves of non-nodulated *Glycine max*
by J.D. Everard, V.R. Franceschi and M.S.B. Ku (Pullman, WA) 167–172

Effect of TMV induced systemic acquired resistance and removal of the terminal bud on membrane lipids of tobacco leaves
by A. Ádám, B. Barna, T. Farkas and Z. Király (Budapest and Szeged, Hungary) 173–179

Accumulation of glucosinolates in developing mustard (*Brassica juncea* L.) seeds in response to sulphur application
by S. Kaur, S.K. Gupta, P.S. Sukhija and S.K. Munshi (Ludhiana, India) 181–184

Effects of water stress on the molecular species composition of polar lipids from *Vigna unguiculata* L. leaves
by F. Monteiro de Paula, A.T. Pham Thi, J. Vieira da Silva, A.M. Justin, C. Demandre and P. Mazliak (Paris, France) 185–193

Hydroxylation and *N*-demethylation of chlorotoluron by wheat microsomal enzymes
by C. Mougin, F. Cabanne, M.-C. Canivenc and R. Scalla (Dijon, France) 195–203

Partial purification of two forms of spinach leaf sucrose-phosphate synthase which differ in their kinetic properties
by G. Siegl and M. Stitt (Bayreuth, F.R.G.) 205–210

GENETICS AND MOLECULAR BIOLOGY

Effects of abscisic acid and osmotica on helianthinin gene expression in sunflower cotyledons in vitro
by D. Goffner, P. This and M. Delseny (Toulouse and Perpignan, France) 211–219

Biochemical and genetic analysis of different patatin isoforms expressed in various organs of potato (*Solanum tuberosum*)
by R. Höfgen and L. Willmitzer (Berlin, F.R.G.) 221–230

Maintenance of a plant line containing an antisense gene and silencing of the target gene following sexual crosses
by C.-I. Cheon, A.J. Delauney and D.P.S. Verma (Columbus, OH) 231–236

The apocytochrome *b* from an alloplasmic line of wheat (*T. aestivum*, cytoplasm-*T. timopheevi*) exists in two differently expressed forms
by E. Saalaoui, S. Litvak and A. Araya (Bordeaux, France) 237–246

CELL AND TISSUE STUDIES IN VITRO

Factors affecting high frequency differentiation of shoots and roots from cotyledon explants of *Brassica juncea* (L.) Czern
by K.K. Sharma, S.S. Bhojwani and T.A. Thorpe (Delhi, India and Calgary, Canada) 247–253

High frequency of pollen embryoid formation and plant regeneration in *Triticum aestivum* L. on monosaccharide containing media
by C.C. Chu, R.D. Hill and A.L. Brule-Babel (Winnipeg, Canada) 255–262

Somatic embryogenesis and plant regeneration from zygotic embryos of *Feijoa sellowiana* Berg.
by G.S. Cruz, J.M. Canhoto and M.A.V. Abreu (Coimbra, Portugal) 263–270
Peroxidase production by cell suspension and hairy root cultures of horseradish (*Armoracia rusticana*)
by M. Parkinson, T. Cotter and P.J. Dix (Maynooth, Republic of Ireland) 271–277
Book Reviews 279–280
Subject Index Volume 66 281–284
Author Index Volume 66 285–286
Contents Volume 66 287–289

(Contents continued from back cover)

Somatic embryogenesis and plant regeneration from zygotic embryos of *Feijoa sellowiana* Berg.
by G.S. Cruz, J.M. Canhoto and M.A.V. Abreu (Coimbra, Portugal) 263–270
Peroxidase production by cell suspension and hairy root cultures of horseradish (*Armoracia rusticana*)
by M. Parkinson, T. Cotter and P.J. Dix (Maynooth, Republic of Ireland) 271–277
Book Reviews 279–280
Subject Index Volume 66 281–284
